

SOWsmith Bidder Instructions

How to respond to a SOWsmith bid package. For full scope, always refer to the specific Statement of Work (SOW) or Request for Proposal (RFP) issued to you.

Submitting a bid

Complete the Bidder Response Form, attach pricing on the provided rate sheet, and acknowledge the terms. Late submissions may be rejected.

Scope & exclusions

Bid exactly the Scope of Work. State exclusions and assumptions clearly — the Exclusions & Assumptions section governs disputes.

Safety first

SOWsmith awards work to bidders who put safety first. Provide your safety record and confirm compliance with OSHA, DOT, and PHMSA requirements.

Commercial & legal terms

Standard terms are in the Standard Bid Clause Library. Any non-standard term (bonding, indemnification, liquidated damages) is subject to Legal/Contracts review.

Award

Award is based on price, technical merit, safety, and acceptance of terms, and is approved by Supply Chain (and Legal/Contracts where terms are non-standard).
